From fairway to green
From green to flagstick
You have to go step by step
In steady balanced rhythmic stroke
Under your calculating swing path

No target is the best target
No strategy is the best strategy
No club is the best club
No position is the best position
No strength is the best strength

No speed is the best speed
No timing is the best timing
No weather is the best weather

Who cares a hole in one
Remember it is just a game

Dining (June 24, 2009)

If you do not cook
And do not hire a chef
Every night you have to decide
When to eat and where to eat

French, Italian, and Chinese
Korean, Mexican, and Japanese
Formal dinner, fine buffet and fast food
Endless flavors and choices

Life is the recycling of soul
Living is the return of suffering
If you do not enjoying dinning
Why do you make a living
If you do not enjoying dinning
How do you make a living

Spoiled Pitch Distilled (June 23, 2009)

Firstly it is a pitch
Whether it is high or low
Whether it is for highway or street
No one knows

Secondly it is spoiled
When it is spoiled
How it is spoiled
No one knows

Since the universe is so grand
Always expect unexpected

Conscious Playing II (June 22, 2009)

It is art as well as science
It is theoretical as well as practical
It looks like simple yet complicated
It demands accuracy as well as approximation
It makes you satisfied as well as unsatisfied
It demands rationality as well as irrationality
It makes you joyful as well as painful
It demands you stay focused yet relaxed

No one can replace your own experience
No one can touch with your own feeling
You have to go with your own way
With power, speed, timing, precision, and imagination

Father's Day (June 21, 2009)

Did you get a surprising call from your son
Did you make a surprising call to your father

Are you proud of being a great son
Are you proud of being a great father

Life Style 2.0 (June 21, 2009)

Online instead off-line
Implicit instead of explicit
Light instead of heavy
Mild instead of dense
Raw instead of mature
Short distance instead of long
For here instead of to go
Real instead of virtual
Fast instead of slow

Interpretation of Life (June 21, 2009)

Life is all about experience
Whether it is good or bad

Business has highs and lows
Weather can be cold or hot

Daybreak shall follow sunset
Climax cannot last forever

Always Cafe I (June 20, 2009)

When I went to the coffee shop
I had to turn on air conditioning
And turn off headlights

When I came back from the coffee shop
I had to turn on headlights
And turn off air conditioning

Always on the road
Always in the mood

Motivation (June 19, 2009)

Gas station on the road
Rain for the arid land
Sun for the plants

Catalyst to success

It can be spontaneous or external
It can be financial or spiritual
It can be explicit or implicit
It can be long-standing or instantaneous

A volcano to be erupted
A jet to be taken off
A torch to be lightened up
That is the magic of motivation

Why Business Is That Simple? (June 19, 2009)

If strategy is the king
Execution must be the prime minister
While R & D is the civilian official
R & D is so important
At least in high-tech arena
But what is more important is
Strategy since it is the ruler
Never forget about execution
Since it is the executor
That is why business is that simple

West Suburb/Summer Night (June 18, 2009)

Underneath the fully parked vehicle
It is the green covered soil
On the top of the fully opened root window
It is the green covered sky

No stars no moon
No joy no pain
Not so cold not so hot
Not too slow not too fast

Same time same space
Same matter same energy
West suburb at summer night
Summer night at west suburb

Travel (June 14, 2009) - 165

What is the safest way for travel
Not by driving if you are not your own driver
Not by sailing if you are not your own captain
Not by flying if you are not your own pilot

Take care of yourself first before
You take care of someone else
Treat yourself well before
You treat someone else better

What is the safest way for travel
It is walking on the earth when
You feet touching the ground
Remember we are so trivial in grand universe

Leapfrog (June 11, 2009) - 164

On a small piece of white paper
You can draw anything you want

On a large piece of vacant land
You can build anything you want

No leaders no followers
No overhead no setback
That is the beauty of leapfrog

Search Engine II (June 11, 2009) - 163

Semantics is the study of meaning
Whether formal or informal
Syntax is the rules of language
Whether formal or informal

For the same syntax
You might have different semantics
For the same semantics
You may have different syntax

Asking which one is more important
Between semantics and syntax
Is just like asking which one is more
More important between chicken and egg

In the sea of information and knowledge
How to deal with semantics and syntax
The simplest way is to start from context

Gift from God (June 9, 2009) - 162

Past has passed
You cannot go backward

Future has not arrived
You cannot go forward

Present is in your hand
It is your gift from God

Customer Satisfaction I (June 9, 2009) - 161

Some prospects you should put them into your white list

Frontier Journal, Volume 6, Number 6 June 2009

Sine they will become your customers on the field

Some prospects you should put them into your gray list
Since they will become your customers in the foreseeable future

Some prospects you should put them into your black list
Since they will never become your customers under no circumstance

Prospects are different, customers are also different
Since they are all human beings and human beings are different

Do not recruit your customers, let your prospects go after you
Do not retain your customers, let you customer stick with you

The true business is to regard your customers' business as your own business
Regard their success as your own success, make them win, and then you win

Automatic Life I (June 8, 2009) - 160

On a typical working day
Once you get up
After having breakfast
Prepared by your cooking robot
Get on your car
Sit down on the back seat
Have a cup of wine
Browse news online
Your car takes you
To your office with autopilot

Anything manual can be automated
If and only if it is economical

Conscious Playing I (June 7, 2009) - 159

Whether at inland or at links
Whether in summer or in winter
Your tee box is your starting line
Your flagstick is your goal
Your club is your weapon

Newton's Law may not be enough
What you need is Einstein's Theory
Pay less attention to your score card
The most important shot is the next one
The rule of thumb is to make every club better
While you are playing
You are being played

Moonlight (June 5, 2009) - 156

I saw the moon
Arising from the dark

Occupation/Job (June 3, 2009) - 155

Whether online or off-line
People used to ask me
What is your occupation or job
It seems it is very important

My answer is either IT or VC
Is that Information Technologist
Or Venture Capitalist
My further answer is either
Ice Tea or Vicious Creature instead

So what is my job
My job is to create jobs
And what is my occupation
My occupation is to occupy

Technology Solutions I - Algorithm (June 3, 2009) - 154

There are many kinds of algorithms
As solutions for many kinds of problems
Problems can be complicated or trivial
The complexity of problem
Can be either computationally hard
Or even hard to determine

Algorithms can be either exact or approximate
For problems computationally hard or hard to determine
The best solution is to use approximation
Since there is no perfect solution out there

To be honest algorithm design
Is an art instead of science
The toughest thing might be
Your solutions are too perfect for
Those trivial problems

Business Model I - Buffet (June 3, 2009) - 153

There is no waiter
Yet you get well served

Yet the extra tip is to restrain yourself

Freedom to enter
Freedom to choose
Freedom to eat
Freedom to exit

What is nice model
I love buffet restaurant

A conflict without a foe
An alliance without a tie

Is it a new or old business model
Is it for yourself or someone else
Is it an obligation or privilege
Will it lead to fiasco or victory

There are no winners
There are no losers
In the war of 2.0

Get off the Main Street

Turn left at the Prosper Road
Turn right at the Hope Street
Get on the Future Road

Do you know what to do
With next green light

After Fall it is Winter
After Winter it is Spring

After lunch it is dinner
Do you know what
Will be your next dinner

Every departure is a new arrival
Every arrival is a new departure

Search Engine I (May 31, 2009) - 150

Bing will not bingo
Google might go
Yahoo! is still in struggle

Be grateful embracing the gift of the Lord

Nowadays if you bootstrap
With a dream and a hope
You either need a deep pocket
Or you have to be a technologist

Ideas become cheaper and cheaper
Barriers become lower and lower
Legends become fewer and fewer
You have to be stronger and stronger

Everything can be copied
Only you cannot be duplicated
Down and up
That is the way of startup

Immigrate to Moon (May 15, 2009) – 145

On the moon far far away
Do they require social security numbers
Do they offer green cards
Do they use passports

Are there any golf courses there
Are there any wild frontiers there

What is more fascinating than

To have a dream beautiful
What is more challenging than
To accomplish a mission impossible

On the road to nowhere

What you need

What I produce is milk

Formal is informal
Fast is slow

Social Networking (Apr 11, 2009) – 129

Even I know who you are
Why should I let you know

Where I am going
Why should I let you know
What I am doing
Why should I let you know
Who I am missing

Even you know who I am
Why should you keep me posted on
Which movie you are watching
Why should you keep me posted on
Which book you are reading
Why should you keep me posted on
Which photo you are taking

Between Anyone Anytime Anywhere in Anyway
And Right-one Right-time Right-place in Right-way
I would prefer the latter
Give me a break social networking

You might outsource driving to a chauffeur

You are a different person
Every language you master
You are a different soul

Driver License (March 8, 2009) - 111

In downtown Shanghai
I was stopped by a police officer
I was questioned why I entered the wrong one-way street
I said I did not know it is an one-way street
After checking my driver license
He just let me go

Assets (February 24, 2009) - 108

All tangible assets I own are

A darling wife I drive every night
Fast or slow I control
A beloved lover I engage with every day
Plain or colorful I write
They are my car and poetry

All intangible assets I own are
Two great growing sons
One was born in 2001
The other was born in 2002
One was born in winter
The other was born in summer

When I came to this world
I did not bring anything with me
When I leave this world
I shall take nothing with me
I am grateful to the world
I am grateful to the Lord

Internet (February 21, 2009) - 107

No Internet to me, it is like

Spring without thunder lightning
Summer without shining stars
Fall without falling leaves
Winter without white snow

Oh, My Internet

You are my ears
You are my nose
You are my mouth

You are my home
You are my dream

Free is not freedom
Freedom is not free

No one ahead
No one behind

Life is you
Life is here
Life is now
Life is just do it

1001 Nights (February 14, 2009) - 104

Cold or warm, I prefer cold
Winter or Spring, I prefer Spring
Sunny or rainy, I prefer rainy
Day or night, I prefer night

In such a cold Spring rainy night
Let me open a window for you
Let me light a candle for you
Let me tell you the Stories
From the Thousand and One Nights

Market (February 9, 2009) - 103

Where there is demand
There is supply

Where there is purchase
There is sales

Where there is main stream
There is niche

Where there is commodity
There is luxury

Where there is gain
There is loss

Where there is risk
There is opportunity

Where there is red sea
There is blue sea

Where there is bull
There is bear

But there is something
Money cannot buy

Drive to Beijing from Shanghai V - On the Road II (February 8, 2009) - 102

On the road
Fog, rain and cold
Fear, uncertainty and dismay
Whatever happens
You have to go ahead

Mile by mile
Town by town
Rest area by rest area
Minute by minute
Hour by hour

You have to possess vigilance
You have to possess strength
You have to possess patience
You have to possess endurance
You have to possess confidence

No one ahead
No one behind
Do not be timid
You will hit the end

Drive to Beijing from Shanghai IV - Beijing Impression (February 3, 2009) - 101

Modern on its face
History in its body
High-tech in its muscles
Culture in its heart

A city with all roads straight
A city with all accents standardized
A city gathers so many talents
A city draws so many elites

A city once studying
Now revisiting
A city once cycling
Now driving

A city makes Washington be serious
A city makes London be jealous
A city makes Tokyo be inferior
A city makes Shanghai be nervous

Here I tell my son I want to try something new
Here my son tells me he wants to try something old
Here I tell my son life is good
Here my son tells me life is tough
Here I tell my son I want to be a full-time poet
Here my son tells me he wants to be a full-time fool

Life is about experience
Experience depends on your interpretation
Interpretation depends on your calibration
Calibration depends on your judgment

Be your own ruler
Be your own Judge

Here I refresh my memory
Here I renew my energy

Drive to Beijing from Shanghai III - Lotus Pond (February 1, 2009) - 100

Same campus
Different students

Same pond
Different lotus

Same trees
Different leaves

Same bench
Different sitters

Same space
Different time

Same scene
Different sentiment

My gorgeous Lotus Pond
My good old day

Drive to Beijing From Shanghai II - On the Road I (January 31, 2009) - 99

Passing the Convenience Store
Passing the Metro Station
Passing the Five-Continent boulevard
Passing misty Yangtz River

One hand on the wheel
One hand with a coke
Radio on the head
Eyes on the road ahead

Watching the sunrise at early morning
Watching the sunset at late evening
Passing icy Yellow River
Finally getting to the hometown of Confucius

Why not try something other than WestLife
Forget about Eagle at Hotel California
Embrace Earth Wind and Fire
U2 in such a Beautiful Day

Harbor (January 27, 2009) - 98

Not your harbor
Not your airport
Not your train station
Not your parking lot

A ship seeking a harbor for berthing
Just like you
A plane seeking an airport for landing
Just like you
A train seeking a train station for stopping
Just like you
A car seeking a parking lot for parking
Just like you

If cannot change the world
Change yourself
If cannot change yourself
Change the world

Do it here, do it now
Do whatever you want to do
Be positive, be confident
Be whatever you want to be

Drive to Beijing from Shanghai I - Planning (January 26, 2009) - 97

Eight hundred miles
From south to north
From coast to inner land
You can go by air
You can go by train
You can go by bus
But I choose to drive
In such cold winter alone

Prepare lodging
Prepare water
Prepare food
Prepare music
Wheel in your single hand
Direction under your own control
Pedal under your single foot
Speed under your own control

It was not from SF to LA in 1996
It is from Shanghai to Beijing in 2009

Life IV - Essence of Life (January 23, 2009) - 96

What is life
Where is life
When is life
How is life

If life is the sea
You are the ship sailing
If life is the sky
You are the plane flying
If life is the road
You are the car moving

Life is your brain storming
Life is your heart beating
Life is your lung breathing
Life is your blood circulating
Life is your eyes watching
Life is your ears listening
Life is your mouth talking
Life is your nose smelling
Life is your tongue tasting

Life is your fingers touching

Life is you
Life is here
Life is now
Life is just do it

Life III - Artistic Life (January 23, 2009) - 95

Every day is a story
Every night is a poem

Every start is a paradise
Every stop is a haven

Every road is straight
Every light is green

Every town is hometown
Every land is homeland

Every dream becomes true
Every fantasy becomes reality

Your style is immortal
Your characteristic is eternal

Free (January 18, 2009) - 94

No matter how long it takes
Eventually everything will be free
I am not kidding
You are not dreaming

Apparel will be free
Food will be free
Accommodation will be free
Traveling will be free

There will be no salary
There will be no tax
There will be no tuition
There will be no alimony

Remember free is not freedom
And freedom is not free

Map (January 17, 2009) - 93

Two-D blueprint
Three-D imagination
Town map
City map

Country map
Continent map
World map

I enjoy reading maps
I enjoy collecting maps
From DMV
From bookstore
Wherever I go
Whatever I do

What GPS offers is direction
What map offers is view
Whether local or global
Whether modern or historical

Map stores my memory
Map fulfills my dream

Mid-night (January 16, 2009) - 92

Silent cold mid-night
After a loud hot shower
In front of the magnificent map
Have a cup of full-bodied Whisky
Ignore the exaggerated radio gossip
On the road to the paradise of dream

German Impression (January 15, 2009) - 91

To understand a country
You might start from airliner
To understand a city
You might start from airport

In an unfamiliar country
With an unfamiliar language
In an unfamiliar city
Through an unfamiliar highway
To find an unfamiliar hotel
Located in an unfamiliar street

Not just Swan Lake
Not just Neuschwanstein Castle
Not just high-speed trains
Not just luxury cars
Not just cool beers
Not just delicious sausages

It is a land of poetry
It is a land of philosophy
It is a land of discipline

It is a land of efficiency

Right Here, Right Now (January 9, 2009) - 90

Right now if you are online
Most likely you must be off road
Whether you are at work, at home or elsewhere
You must be in a room, whether big or small
Your room must be in a building, whether big or small
Your building must be in a town, whether in city or countryside
Your town must be in a continent, whether big or small
Your continent must be on the globe, tiny part of the universe
Right here, it is a small world in the big universe
Right now, it is a short moment in the long history
The longest distance is the distance between souls
The ultimate truth is the truth that no one believes
There is a will, there is a way
He who laughs last, laughs best

New II (January 7, 2009) - 89

New year
New office
New home
New community
New neighborhood
New people

New IP address
New phone number
New parking lot
New gas station
New supermarket
New restaurant

New life
New journey
New is old
Old is new

New I (December 31, 2008) - 88

You have to admit
No one hates new
I like new
Because I am creative
I like new
Because I am innovative
I like new
Because I am positive
I like new
Because I am confident

New offers imagination
New offers hope
New offers opportunity
New represents frontier

Trust me or not
World was created to be beautiful
Trust me or not
People were born to be nice
Trust me or not
Life is supposed to be good
Trust me or not
Future is supposed to be bright

Whoever you are
Wherever you are
Whatever you do
My fellow reader
Happy New Year

Enlightenment (December 25, 2008) - 87

Technology advancement is so amazing
Once a cell phone looked like a brick
Now it looks like a card
Once a home theater looked like a suitcase
Now it looks like a wallpaper
GPS becomes your universal map
Wikipedia becomes your instant encyclopedia
Gadgets become smaller and smarter
Knowledge becomes commodity instead of luxury

Do not be out of joy
Sit down and think it over
How much do we know about ourselves
How much do we know about the universe
How much do we know about our planet
Where did we come from
Where are we going
How old is the universe
How big is the universe

Darwin developed the Theory of Evolution
But he failed to convince us the origin of life
Einstein discovered the Theory of Relativity
But he failed to explain the formation of universe
Science is too superficial
Technology is just pragmatic
Whoever you trust
Whatever you believe
Trust yourself and love the world

Gap II (December 23, 2008) - 86

You are suffering in cold winter expecting sunshine
They are struggling in hot summer waiting for moon light
You are breathing at the peak of great mountain
They are suffocating in the bottom of deep sea
You are driving at the maximum allowed speed
They are moving below the minimum allowed speed
What you ask for hot chocolate
What they offer you ice cream
What you want is to go
What they insist is for here

You believe in simple is beautiful
You prefer what you can see is what you can get
You enjoy show the results immediately
Do not complain, do not blame
If you cannot tolerate the difference
Just try a difference way
There is a will
There is a way

Change I (December 19, 2008) - 85

Gas price is lowered
Road construction fee is eliminated
Driver license gets renewed
And direct flight to Taiwan gets opened

Three decades passed
A tree becomes a forest
A boy becomes a man
A son becomes a dad

The climate gets warmer
The globe gets smaller
Every day is a holiday
Every year is a great year

The only unchanged is change
The only change is unchanged

Color of Night (December 15, 2008) - 84

Sky is dark
Moon is white
Music is blue
Street light is yellow
Traffic light is green
Brake light is red

In the jungle of skyscrapers

You are just a tree
In the sea of cars
You are just a fish

On the road
There must be a reason
In the mood
There must be a clue

No matter where you start
You shall reach your destination
No matter where you go
You will be back to your home

Choose your own route
Control your own speed
Your dream is in your mind
Your future is in your hand

Night is cold
Life is good

Moving (December 14, 2008) - 83

Two decades ago when moving
I just had two suitcases to handle
One decade ago when moving
I could pack all I had in my hatchback
Now when moving
I need to hire a pickup

Moving is painful
No one wants to move
Changing is unpredictable
No one wants to change

What to keep
What to sell
What to donate

I can sell anything
Except my books
I can donate anything
Except my maps

From continent to continent
From country to country
From city to city
From town to town

I wish my car can fly

I wish there is no traffic light

Inspiration (December 11, 2008) - 82

It might happen
anytime anywhere in anyway
But you do not know
when where and how

It is holy oracle
It is the stairway to heaven
It is the field of gold
It is crown jewelry

It is instant instead of constant
It is unconscious instead of deliberate
It is disposable instead of reusable
It is for here instead of to go

How can I survive without you
Only you, only you

Fame (December, 2008) - 80

Cloud in the sky  
Moon in the water  
Flower in the mirror  
Candle in the wind

It might make you hungry  
It might make you thirsty  
It might make you breathless  
It might make you clueless

Source of joy  
Source of pleasure  
Source of satisfaction  
Source of ambition  
Source of pain

Source of remorse  
Source of envy  
Source of hate

For some people  
It is priceless  
For some people  
It is worthless  
For some people  
It is commodity  
For some people  
It is luxury

You have a colorful life  
When you use it as seasoning  
You have a miserable life  
When you use it as doping

Go your own way  
Sing your own song  
Road under your foot  
Sun above your head

Spotlight (December 6, 2008) - 79

On such a grand stage  
In such a tiny cage

I know you are busy  
In the spotlight  
I know you are dizzy  
In the spotlight  
I know you are lucky  
In the spotlight  
I know you are shaky  
In the spotlight

What you think is not what you listen  
What you say is not what you think  
What you do is not what you say  
What you enjoy is not what you do

You are an actor instead of director  
You are a character instead of creator  
You are ignorant instead of illiterate  
You are lonely instead of alone

You cry when you smile  
You smile when you cry  
You are in the spotlight  
Your own spotlight

Poet II (December 4, 2008) - 78

A poet is a life observer  
A poet is a day dreamer  
A poet is a log keeper  
A poet is a story teller

A great poet is a philosopher  
A great poet is a photographer  
A great poet is a psychologist  
A great poet is a pianist  
A great poet is a historian  
A great poet is a traveler  
A great poet is a gourmet  
A great poet is a bartender

A great poet is an innovator  
A great poet is a transformer  
A great poet is an eliminator  
A great poet is a creator  
A great poet is a shaker  
A great poet is a mover  
A great poet is a learner  
A great poet is a mentor

A great poet is an opportunity seeker  
A great poet is a risk taker  
A great poet is a pacemaker  
A great poet is a peace lover  
A great poet is a lonely thinker  
A great poet is a cheerleader  
A great poet has no forerunner  
A great poet has no follower

What you sow is your passion  
In the soil of technique  
What you reap is inspiration  
With the joy of satisfaction

Poetry is to release  
Release yourself first  
And then to release someone else

Poetry is to motivate  
Motivate yourself first  
And then to motivate someone else

Poetry is to entertain  
Entertain yourself first  
And then to entertain someone else

Poetry is to trust  
Trust yourself first  
And then to trust someone else

Be graphic  
Be symbolic  
Be romantic  
Be realistic  
Be idealistic  
Be skeptic  
Be classic  
Be modern  
Be dramatic  
Be fantastic

Be a poet, be a great poet  
No one ahead, no one behind

Poet I (December 2, 2008) - 77

Once a noble profession  
Now only a part-time job  
Once the focus of attention  
Now you need a poet's corner

No great poet without pride  
No great poet without sensibility  
No great poet without passion  
No great poet without inspiration

No great poet is rich  
No great poet has power  
No great poet can survive without love  
No great poet can sustain without freedom

Weaver of language  
Mixer of sound  
Recorder of life  
Recorder of love

Universe is your space  
History is your time  
Mankind is your family  
Audience is your lover

No poet was born a poet  
No great poet was born a great poet  
Masterpiece is your offspring  
Fame is your by-product

Be a cynic  
Be a narcissist  
Be a paranoid  
Be yourself

Do not envy  
Do not complain  
Be a poet  
Be a great poet

Decade I (November 29, 2008) - 76

When you ask so many questions that your mom does not know how to answer  
While you sit at the front of your mom's bike  
When you jump into water while your dad is not watching you  
While you do not know how to swim and cry to ask for your dad's help  
When you are proud of yourself as your teacher visiting your home  
While most of your classmates are fear of your teacher's home visiting  
You are in the first decade of your life

When you start to compete at school after taking your parents' suggestion  
As you know studying hard is the only way to change your life  
When you are lazy on-campus while not at home  
As you want to be different to your classmates  
When you are dreaming to move to your capital for further study  
As you want to get into the best school in the nation  
You are in the second decade of your life

When you are surprised there are so many smart classmates around you  
After you leave your hometown and ride on your bike in the most beautiful campus  
When you start to treat English like your native language  
After you see so many schoolmates go abroad by passing English test  
When you are in a plane for the first time heading towards a strange land  
After you pass so many tests and contact so many professors  
You are in the third decade of your life

When you surprises your peers who say why Chinese are so smart  
When you are out of joy after owning your first used car  
When your local roommate asks for a coffee after coaching you on how to drive  
When your advisor complains you are running too fast  
When you turn down one job offer and go for another  
When you work in the industry as a CEO-under-training  
You are in the third decade of your life

When your customer becomes your boss  
When your freedom becomes your burden  
When your daily job is to create jobs  
When you nightly job is to create poems  
When no town becomes your hometown  
When no land becomes your homeland  
You are in the fourth decade of your life

How many decades have you gone through?  
How many decades are you expecting to proceed?  
Living is writing  
Life like a drama

Morning I (November 28, 2008) - 75  
Shining sunlight penetrating the bright window  
On the balcony in the wind of winter  
Gently waking me up  
In the dream of wonderland

Two eyes wide open on three-mattress covered floor  
Gazing my map of China on the left side of the wall  
Gazing my map of US on the right side of the wall  
Looking up my map of the world on the ceiling

Your vision could be sharper than your eyesight  
Your heart could be bigger than your world  
Your future could be brighter than your dream  
Your life could be happier than your imagination

Say what you want to say  
Go where you want to go  
See what you want to see  
Do what you want to do

If not here, where?  
If not now, when?  
If not this way, how?  
If not me, who?

Right here, right now  
Just do it, just do it

Thanksgiving 2008 (November 24, 2008) - 74  
All cars are parked  
All stores are closed  
All streets are vacant  
All communities are silent

All houses are crowded  
All tables are occupied  
All gourmet are served  
All families are united

Warmest heart  
Hottest dinner  
Thanksgiving  
Thanks giving

Son I - Model (November 21, 2008) - 73

At the beginning of the century  
In the year of dragon  
On a typical sunny summer day  
While mowing at the backyard  
I saw a tiny snake on the lawn  
Without any hesitation I just let it go  
In less than a year  
My son was born

Before one of his birthdays  
I sent him a nice model car  
At the dinner table  
When face to face  
I asked if he likes the car or not  
He said it is just a model car  
I said it is not a model of my car  
Instead it is a model of your life

Growing is fun  
Growing has pain  
Son, I am here  
Watching you

Sports (November 19, 2008) - 72

You can race  
You can sail  
You can climb  
You can glide

You are the jaguar  
You are the shark  
You are the lynx  
You are the vulture

Enjoy your land  
Enjoy your sea  
Enjoy your mountain  
Enjoy your sky

When you are playing  
You are being played

Future (November 17, 2008) - 71

Three-D space of imagination  
Sixth Element of hope  
Major source of aspiration  
Ultimate destination of dream

A picture you can paint  
A story you can create  
One way trip you have to take  
Dead end road you have to hit

It can hardly be predicted  
It can be barely trusted  
What you can pick might not be what you expect  
What you will own might not be what you want

No roadmap, no blueprint  
Just follow your gut

**Airport (November 12, 2008) - 70**

Once park my car at the long term parking  
Check myself in at the counter  
Find my seat in the plane  
Turn off my cell phone  
When wait for the plane to take off  
I know it is a new journey

Once the plane touches the ground  
Get my rental car  
Turn the GPS on  
Enter my hotel address  
When get into the highway  
I know the prospect is on the way

Just another day  
Just another way

**Rain (November 7, 2008) - 69**

Descend from the sky  
Strike the mountain  
Strike the river  
Strike my mind

You are my cleaner  
You are my humidifier  
You are my cooler  
You are my washer

You make my night poetic  
You make my day dramatic  
You make my past memorable  
You make my future tangible

You are my oasis in the desert  
You are my island in the sea  
You are my ore in the land

You are my soul in the body

Born as vapor  
Gone as vapor

Destiny II/Election II (November 5, 2008) - 68

In such a grand universe  
Your body will vanish  
Your soul will last  
In the form of gene

You have to admit  
People are different  
Some are smart  
Some are intelligent

Do not envy  
Do not complain  
Do not wait  
Do not stop

In good mood  
In good spirit  
With right direction  
With right attitude

Do not attempt to change  
All have been arranged

Night IV (November 2, 2008) - 67

Cold night is rainy  
Imaging the steps of winter  
Warm heart is shining  
Remembering the days of Summer

In-car music is loud  
Poet's mind is silent  
Street lighting is dim  
Future direction is bright

Life is a one-way journey  
Spanning from birth to death  
Hitting each milestone called hope  
Pursing satisfaction named happiness

Too many landscapes on the road  
Life is so good

Gratitude (October 29, 2008) - 66

Be grateful

When you breathe in the fresh air  
Be grateful  
When you drink the clean water

Be grateful  
When you fly in the cloudless sky  
Be grateful  
When you drive on a no-speed-limit highway

Be grateful  
When people care about you  
Be grateful  
When people serve you

Be grateful  
When you live in a peaceful world  
Be grateful  
When you belong to a harmonious society

All you own will be paid  
All you contribute will be counted

Feeling (October 27, 2008) - 65

When you feel weak  
It is not strong  
When you feel dizzy  
It is not sober

When you feel distracted  
It is not concentrated  
When you feel ambiguous  
It is not clear

When you feel bad  
It is not good  
When you feel touching  
It is not indifferent

Fear is feeling  
Uncertainty is feeling  
Doubt is feeling  
Dismay is feeling

Feeling is perception  
Feeling is intuition  
Feeling is illusion  
Feeling is feeling

Night III (October 25, 2008) - 64

When you feel dizzy

At night on the highway  
Do not take the risk  
Pull off your car right away

Put your brake on  
Shut down your engine  
Take a deep breath  
Have a short break

When you proceed  
Merge with the traffic  
Open up windows  
Turn on the music

Stay focused  
Stay controlled  
Stay confident  
Move in full speed

Do not be timid  
You have to go ahead

Barber Shop (October 24, 2008) - 63

Same quiet street  
Same quiet shop  
Same quiet chair  
Same quiet barber

For the same head  
You may have different styles  
For the same style  
You may have different results

Too few time to read  
Too few time to write  
Too few time to think  
Too few time to select

No matter how competitive you are  
There is something you cannot do

Winter (October 22, 2008) - 62

All are drunken  
Only I am sober  
All are sleepy  
Only I am awake

All are pessimistic  
Only I am optimistic  
All are thinking

Only I am acting

All are leaving  
Only I am staying  
All are selling  
Only I am buying

All are slowing down  
Only I am speeding up  
All are missing  
Only I am hitting

If Winter is coming  
Will Spring be far away

Chemistry (October 21, 2008) - 61

Not at Lotus Pond  
Not at Unnamed Lake  
Not at Diamond Head  
Not at Pebble Beach

Without full moon  
Without shining star  
Without fine wine  
Without blossoming flower

You are oxygen from the heaven  
I'd like to be hydrogen in the hell  
To acquire you, merge with you and burn with you  
Make the holly water of life

Naturally born  
Naturally gone

Night II (October 18, 2008) - 60

On the lonely highway  
Underneath the dark sky  
In the fast moving lane  
Out of my mind

Dim lights in front of the eye  
Wild wind behind the ear  
Speed is illusion  
Acceleration is illusion

In moving car  
Body keeps still  
In moving body  
Soul keeps still

No one ahead  
No one behind

Winning (October 13, 2008) - 59

It is amazing  
Why same team same equipment  
Today you win  
Yesterday you lost

Strategy, tactics and vision  
The best offense is defense  
Timing, team and location  
The best competition is cooperation

From battlefield to battlefield  
From victory to victory  
From arena to arena  
From glory to glory

Losers might win  
Winners might lose  
To lose is to win  
To win is to lose

There is no magic for succeeding  
There is no silver bullet for winning

History II (October 12, 2008) - 58

Such a bright mirror  
So dramatic  
So poetic  
So historic

In the mirror, do you see  
Masters and servants  
Landlords and tenants  
Generals and soldiers

In the mirror, do you see  
Dividing and conquering  
Rising and falling  
Separating and Reunioning

It is mirror of memorization  
What you see is just reflection

History I (October 8, 2008) - 57

It is a grand library  
Every book is a country  
Every chapter is a dynasty

Every chapter has its own glory

Some books are missing  
Some books are still expanding  
Some chapters are fascinating  
Some chapters are boring

You may choose your own books  
But you cannot choose your own chapters  
There are many readers  
But only very few writers

Be grateful to the library owner

### Doors (September 30, 2008) - 56

In deep space  
There is no air  
To walk in space  
You have to open the door

There are so many doors  
There are so many ways  
Have many doors have you opened?  
Have many ways have you found?

Some doors are small  
Some doors are big  
Some doors are hidden  
Some doors are visible

Some doors are open  
Some doors are closed  
Some doors are broken  
Some doors are perfect

Some doors are firm  
Some doors are fragile  
Some doors are sophisticated  
Some doors are simple

If you plan to get in through doors  
Why waste time on windows?  
If your favorite is orange  
Why waste time on apple?

If your source is open  
Why make your destination closed?  
If your reality is virtual  
Why make your dream real?

If you cannot open front door  
Why not try back door?  
If you cannot open the door once  
Why not try it twice?

There is a door  
There is a way  
There is a way  
There is a light

Do not be timid  
Just go ahead

Idea (September 27, 2008) - 55

Oh my God  
What a world  
Ideas can be priced  
Ideas can be sold

Oh my God  
What a world  
Ideas can be copied  
Ideas can be traded

Ideas are cheap  
When my ideas suddenly become your ideas  
Ideas are expensive  
When you have to solely rely on my ideas

Do not attempt to change to the world  
Since the distance between reality and imagination is far  
Do not attempt to acquire the world  
No matter how deep your pockets are

You can control your mind  
You cannot control the mind  
You can win your world  
You cannot win the world

In my mind in this world  
There is something money cannot buy

Feast (September 24, 2008) - 54

In such a fascinating evening  
Waiters are waiting  
Singers are singing  
Dinners are dinning

So many tables

So many gourmets  
Too many flavors  
Too many choices

Some people are toasting  
Some people are tasting  
Some people are arriving  
Some people are departing

No night without daybreak  
No feast lasts forever

Toothbrushes (September 21, 2008) - 53

Collection of toothbrushes  
In different brands  
With different length, materials and colors  
Sit in different paper cups

Those paper cups  
In different brands  
With different size, textures and colors  
Are marked with different tags

Every tag in different color and font  
Has a different story  
Every day produces story  
Every night composes poetry

Those lovely toothbrushes  
Those unforgettable moments

Moment III (September 19, 2008) - 52

Heavy moon in clear sky  
Light music in fresh air  
At the crossroad  
Near the sidewalk

Have seat you decline to sit  
Have stories you insist to shield  
Have wine you hesitate to taste  
Have tears you put on hold

Hit what you should miss  
Miss what you should hit  
Gain what you should lose  
Lose what you should gain

All doors opened for you  
All roads ahead of you  
All options available to you

All dreams waiting for you

You left your smile in fall night  
I carved your soul on my heart

The Day after Tomorrow (September 19, 2008) - 51

Fall night west suburb parking lots  
Shallow blue sky messy clouds  
Shining lights busy tennis courses  
At car side lots of random thoughts

When fall looks like summer  
When earthquake happens more frequent  
When cyclone hardly can predict  
When venture capital becomes vapor catalyst

How come investment bank cannot invest on itself?  
How come insurance company cannot insure itself?  
How come commodities are sold as luxuries?  
How come market economy has to be saved by government?

If you are a driver  
Do not panic  
Think about winter  
Save gas, food and water in your trunk

What is success?  
Enjoy the process

Search (September 12, 2008) - 50

In thick ice covered deep blue ocean fishing  
In heavy white snow wrapped steep green hill hunting  
In hot dead vast inner desert roaming  
In cold silent deep outer space exploring

Process of determination  
Problem and solution  
Desire and satisfaction  
Reality and expectation

The larger accumulation  
The higher precision  
The more preparation  
The less execution

Life follows the law of conservation  
There is problem without solution  
There is desire without satisfaction  
There is reality cannot meet expectation

When you hit it  
Do not be too pleased  
When you miss it  
Do not be too sad

Enjoy the process, ignore the results  
It is the essence of happiness

Luxury I - Hot Summer Road (September 8, 2008) - 49

It is not hot summer any more  
Yet still feel the heat at the floor

Tonight at Hot Summer Road  
Stop and park at the roadside  
Hold watermelons in one hand  
Carry grapes in the other hand

Do you get fed up with routine jobs?  
Working out at gyms  
Shopping around at grocery stores  
Filling gas at gas stations

Without change  
No drama is dramatic  
No novel is novel  
No satisfaction is satisfied

Your life is your poetry  
Your freedom is your luxury

Emergency (September 3, 2008) - 48

At the end of a typical working day  
Walk straight down the stairway  
Start the engine to head on the way  
Pull the car out of the garage

Roads packed with cars  
cars packed with riders  
Riders full of eagerness in their eyes  
Like flashing lights at crossroads

There is noise in the air  
There is warning signal on the dashboard  
Stop to check on the roadside  
Detour back home with a flat tire

Every night is a story  
The beauty of life is its uncertainty

Night (September 2, 2008) - 47

At night, it is dark  
No more traffic  
Have a break  
Listen to Serenade

You do not wear your mask  
You do not need to work  
You do not watch your clock  
You have time to think

Do not drive too hard  
Stop at your cross road  
Think about your road ahead  
The more haste, less speed

On the road, in the mood  
Cherish sunset, embrace daybreak

Poetry II/Puzzles I (August 31, 2008) - 46

In the family of literature  
Only poetry is the champion of creative writing  
But exactly what is the essence of poetry  
From a poet's perspective in modern society?

Sonnets, Jintishi, Villanelle, Ruba'i, Sijo and Sestina  
Ode, Ghazal, Pantoum, Rondeau, Haiku, Ghazal and Tanka  
Lots of poetic forms  
Which one is your top choice?

Narrative Poetry, Epic Poetry and Dramatic Poetry  
Satirical Poetry, Lyric Poetry, Verse Fable and Prose Poetry  
So many poetic genres  
How did Prose Poetry become your most favorite?

Certain poems are based on personal memoir  
Certain poems are originated from social observation  
Certain poems are inspired by philosophical speculation  
What is your source of inspirations when initiating poetry composing?

Joy, sorrow, love and hate in a lonely soul  
Time, space, matter and energy in a vast universe  
How much shall a passionate poet be allowed  
To reveal his secret inner world to the audience?

To be a great poet, one needs both skills and passion  
While skills can be accumulated over time  
Passion can be hardly generated even with the best catalysis  
So was a poet born to be poet or not?

In a rational business world full of commodities

In chasing time-to-market and maximizing shareholder values  
How can aesthetic luxury like emotional poetry  
Survive and even prosper in the 21st century?

From Gift Economy to Money Economy  
From global warming to information explosion  
Email, SMS, IM, Blog, Podcast and SNS are squeezing the territory of Newspapers, TV and radio  
How can poetry attract netizens' eyeball in highly competitive Attention Economy?

There are rich playwrights  
There are wealthy novelists  
There are high-profile songwriters  
Why cannot poet be a dedicated career nowadays?

Philosophy, culture, art, science and religion, soil of poetry  
Drama, painting, music and fiction, nutrition of poetry  
In the history of human civilization with so many national languages  
How did poetry evolve to be the most profound aesthetic art independently?

### Going Home II/West Side Story V (August 30, 2008) - 45

Two years  
Two dozen of months  
So many days and nights  
The time is approaching for going home again

Run out of shoes  
Run out of cloths  
Run out of ideas  
Run out of inspirations

I wanna have a haircut in the barb shop at Fremont  
I wanna have a dinner at Cliff House in San Francisco  
I wanna have a all night movie at AMC of Santa Clara  
I wanna have some books in DigitalGuru at Sunnyvale

You have Intuit in intuition  
You offer Oracle to succeed  
You possess Applied Materials for innovation  
You turn sand into silicon at Sand Hill Road

No town in hometown  
No land is homeland

### Moment II (August 29, 2008) - 44

In dark night  
Under dark sky  
At dark balcony  
In dark mind

A glass of wine

A cup of water  
A deep breathe  
A short break

Same radio  
Same channel  
Same DJ  
Same song

No one ahead  
No one behind

East Side Story IV - Olympics Night II (August 25, 2008) - 43

Same Five Square  
A mini bird nestle  
Same parking lot  
A natural in-car theater

Naked air  
Naked screen  
Naked car  
Naked eyes

So large audience  
So many athletes  
So big smiles  
So many medals

Do you see the Memory Tower of Beijing?  
Do you see the Red Bus of London?  
Do you feel the rhythm of peace?  
Do you feel the pulse of prosper?

One World  
One Dream  
One universe  
One bless

Win or lose, who cares?  
It is just a game

Life II - Mentality (August 18, 2008) - 42

When you are hungry  
But decline to eat  
When you are thirsty  
But refuse to drink

Birth after death  
Found after lost  
Happiness after sadness

Tranquil after turbulent

When you have solutions  
But cannot find problems  
When you have destinations  
But cannot identify sources

Say what you need to say  
Go where you need to go  
See what you need to see  
Do what you need to do

Offer what you need to offer  
Accept what you need to accept  
Remember what you need to remember  
Forget what you need to forget

No life can be eternal  
Only spirit is immortal

Car (August 14, 2008) - 41

Horse of knight  
Weapon of warrior  
Oars of boat  
Wings of bird

Every country I go  
Every city I visit  
Every town I stop  
You are always with me

Four seasons  
Three hundred sixty five days  
Ups and downs  
You are always with me

Every endless highway  
Every one-way street  
Every lonely journey  
You are always with me

Passing the glorious past  
Hitting the bright future  
Grasping the fascinating present  
You are always with me

How can I survive without you?  
Only you, only you

East Side Story III - Olympics Night I (August 9, 2008) - 40

Late summer early fall night  
Facing huge screen at Five-Square Shanghai  
Opening all windows at a ground parking lot  
In-car radio staying in sync with the moment high

I saw Germany, I saw China  
I saw Yao Min bearing the flag marching  
I saw USA, I saw Canada  
I saw the torch tower finally burning

Two hundred and five nations  
One World  
Four billion viewers  
One Dream

Live like you were dying  
It is a grand opening

Qi Xi - The 7th Day of the 7th Lunar Calendar (August 6, 2008) - 39

Summary of summer  
Falling of fall  
Seasoning of season  
Nature of nature

How cool is cool?  
How hot is hot?  
In summer you expect fall  
In fall you miss summer

Lost and Found  
Beauty and beast  
Evil and good  
Cheating and honest

Just one more day, one more time  
The end of summer, the beginning of the fall

East Side Story II - The Human Comedy (August 4, 2008) - 38

Daybreak into darkness  
Oasis in the desert  
Wrath of silence  
Out of nowhere is your trust

When a tiger raised in the jungle  
Sneaked into a village, intimidated by a dog, wandering  
When a frog, born underneath the pebble  
Jumped into a well, looking at the sky, pondering

Black can be turned into white  
Right can be changed to wrong

**Frontier Journal, Volume 6, Number 6 June 2009**

Dignity, integrity, fairness, honesty, and transparency  
With wind they are all gone

Let those comedians dominate the stages  
At the end of the thunderstorm, the Sun still rises

**Homeland III/West Side Story IV - Highway California (July 26, 2008) - 37**

A typical California Summer not that hot  
Thanks to the Mediterranean climate so mild  
Getting a call from a Mayflower Moving agent  
The Ford Tempo shipped from Mid-West finally arrived

Foggy Golden State Bridge morning Treasure Island  
Picking up breakfast from a local McDonald's  
Passing the Sand Hill Road behind Stanford  
Departing from the bay area at the Silicon Valley Boulevard

Leaving the farm fields of central coast behind  
Filling gas near the Idealab at Pasadena  
Watching the sunset in the downtown Hollywood  
Four hundred miles of highway in a day sooner

Your can go Southwest from SFO to LAX in an hour  
But that is your California, not my California

**Homeland II - Gap (July 20, 2008) - 36**

In the tropical rainforests  
Across the Amazon River  
Far from the crowded streets  
It is a hot summer

When a tiger raised in the jungle  
Sneaked into a village, intimidated by a dog, wandering  
When a frog, born underneath the pebble  
Jumped into a well, looking at the sky, pondering

How can a parrot more insightful than an eagle?  
How can a giraffe more speedy than a jaguar?  
How can a crocodile more patient than a turtle?  
How can a monkey more powerful than a gorilla?

To be or not to be  
Let it be, let it be

**Homeland I - Red Cliff (July 17, 2008) - 35**

One thousand eight hundred years ago  
One dynasty  
Three kingdoms  
One million warriors battling at Yangtze River

Warships were cruising  
Drums were striking  
Horses were neighing  
Arrows were firing

Weakness is strength  
Defense is offense  
Attacking with fire  
The art of the war

Do not let the history repeat itself  
No more war, only peace

Crossroad (July 15, 2008) - 34

In front of the red light  
At the cross road  
Make a U-turn or go straight  
In the life of journey, you ponder

Rainfalls and sunshines  
Thunderstorms and rainbows  
So many traffic lights  
So many crossroads

When you have to move  
Just move forward  
When you have to leave  
Just leave behind

At the end of the road  
The highway is ahead

Sacrifice (July 10, 2008) - 33

When you watch the sunrise  
Think about the sunset  
When you enjoy the victory  
Remember the fiasco

To win, you have to lose  
To compete, you have to be competitive  
To succeed, you have to fail  
To attract, you have to be attractive

When you are climbing  
Do not look downward  
When you are diving  
Do not look upward

Every departure is a new arrival

Every payout is a new return

Destiny I (July 8, 2008) - 32

People were born unequal  
Some were born humble  
Some were born noble

No matter late life became wonderful or horrible

Not every song can be in the billboards  
Not every pilot can be the astronaut  
Not every novel can go for the Nobel Prize  
Not every kid can be the President

A game without a ruler  
There is no winner and loser  
A drama without a director  
Everyone can be the superstar

Simple life is beautiful  
Beautiful life is unpredictable

Freedom I (July 3, 2008) - 31

Piloting a plane at  
The blue sky without clouds  
Driving a car at  
An endless highway without speed limits

Freedom to move  
Freedom to travel  
Freedom to love  
Freedom to prevail

It looks like commodity  
When you own it  
It becomes luxury  
When you lose it

Cherishable life, precious love  
Without freedom, why do you live?

Life I - Process (July 1, 2008) - 30

Birth, death, aging and sickness  
Love, hate, joy and sadness  
Separation, reunion, marriage and divorce  
All are just part of the process

Someone's life is colorful  
Someone's life is mediocre  
Someone's life is painful  
Someone's life is terrific

Brittle like a crystal ball  
Strong like a diamond head  
Short like a lighted candle  
Unpredictable like a woman's mind

Someone's life changed the history  
Someone's life was changed by the history

Highway I (Jun 27, 2008) - 29

Pouring from dark sky heavy rain  
Hitting front screen, knocking back door  
Turning cruise off, putting emergency lights on  
Wondering if sailing at seashore

One source, one destination  
So many entrances, so many exits  
No car pool lane, no gas station  
No stop signs, no red lights

How many tickets have you ever got?  
How many milestones have you ever reached?  
How many landmarks have you ever hit?  
How many channels have you ever switched?

No worry, the rain will be gone  
And life shall go on

Frontier I (June 24, 2008) - 28

Thirsty without water  
Hungry without food  
Cold without fire  
Searching without a clue  
Roaming without a destination  
Exploring without a roadmap  
Architecting without a blueprint

You don't need to be perplexed  
If not being understood  
You don't need to be the first  
If not the last  
You don't need to succeed  
Only if you have tried  
In highland, it is chilly

Dreams (June 19, 2008) -27

I had dreams fascinating  
To be a pilot  
In the blue sky flying

To be a sailor  
In the turbulent sea sailing

I have dreams fascinating  
Be a full-time poet  
In a remote island composing  
Be an early immigrant  
On the bright moon living

West side story III (June 19, 2008) - 26

Packing up my American dream  
Ontario, Michigan, Indiana and Illinois  
Outside the fast moving Grey Hound  
Endless corn fields swallowing my eyes  
Across Iowa River sites the university town

The following day after getting my driver license  
Stopped by a cop asking if need help  
Cannot start the engine without warming up  
So cold the Mid-West winter  
So warm the rural heart

Campus IV (June 17, 2008) - 25

In front of the river  
Willows in the wind  
Mild rain washing the summer  
Fresh air blowing my mind  
Life is too good

At the back seat  
Music in my heart  
Some beer in the cup  
A piece of paper  
What a poet

Consciousness (June 17, 2008) - 24

Second, minute and hour  
Day by day  
Week, month and quarter  
Year after year  
Past, present and future  
No time is the best time

Home, car and office  
In and out  
City, continent, globe and universe  
Here and there  
Wherever you are  
No space is the best space

Parents, kids, friends and foes  
Love, hate, joy and sadness  
Beauty, scene, wine and gourmet  
Cold, hot, sour, salty and sweet  
Inspiration, passion, insight and foresight  
No life is the best life

Poetry I (June 11, 2008) - 23

Perl of language  
Elite of literature  
A drama not on a stage  
A paint not on a canvas  
A song without music  
Only masterpieces last forever

Joy, pain, love and hate  
Time, space, matter and life  
Sparks of inspiration  
Secretion of passion  
Fruits of creation  
What in common is innovation

Going Home I/East Side Story I - Hangzhou Bay Bridge (June 9, 2008) - 22

Long weekend holiday rainy season  
Trying a brand new route to hometown  
Grand bridge over sea linking highway road  
Cutting a path to the dream of Peach Flower Island

A bridge is not a road  
You cannot stop or move backward  
Colorful life like a fascinating snapshot  
One way journey is not for the faint of heart

Campus III (June 6, 2008) - 21

Eight o'clock at night west suburb  
Same time same place same parking curb  
Same wine same music same shining star  
Life like a drama

Always on the road  
Always in the mood  
Always at searching  
Living is writing

West Side Story II (May 31, 2008) - 20

From the plane window in blue sky  
On top of the vast land of maple  
Fast moving cars on endless highway  
Starting the new journey with a heart humble

No land is my homeland

Short hot summer, long cold winter  
It is the small town across Detroit River  
Watching sunset at the Sunset Avenue  
Dreaming California from California street  
No town is my hometown

Campus II (May 26, 2008) - 19

Weekend early summer night  
Full moon dark sky lonely highway  
Roof window cool wind soothing my heart  
Suburb university town on the way

Do not be scared if no one is leading you  
Do not be upset if no one is following you  
Unnamed Lake and Lotus Pond refreshing my memory  
Tomorrow will be a brand new day

Election I (May 23, 2008) - 18

One black, two whites  
Two men, one woman  
One veteran, two lawyers  
Three senators without a governor

Patriotism, Peace, and Prosperity  
The poor, the rich, and the mid-class  
The left, the right, and the independent  
The essence of politics, the art of balance

A chicken in every pot  
A car in every garage  
Two Parents in every house  
History is the best judge

Earthquake II (May 17, 2008) - 17

A Day Without Rain  
A Little Moonlight  
Down from the Mountain  
Lost in the Lonesome Pines, fragile heart

Soldier of the Cross  
Car Wheels on a Gravel Road  
Brothers in arms  
Candle in the Wind

Don't Let Me Be Lonely Tonight  
Miss you in a heartbeat  
There Will Be a Light  
Rise and Shine, Ray of Light

Somewhere Only We Know The Thrill Is Gone  
Is it A Tale Of God's Will or not  
Not Ready to Make Nice Before The Daylight's Shot  
If those I loved were lost  
Be A Prayer for Peace, Bless the Broken Road  
Who Says You Can't Go Home  
There Will Be a Light from the Glory Train

Fast rode the knight with A Red, Red Rose

Be Glad Your Nose is on Your Face

I will carry your heart with no loss
